

THE UNITED REPUBLIC OF TANZANIA
PRESIDENT'S OFFICE, REGIONAL ADMINISTRATION AND LOCAL
GOVERNMENT AUTHORITIES

USHETU DISTRICT COUNCIL

ADVERTISEMENT FOR VACANCIES.

The Office of Ushetu DC Executive Director in collaboration with Tanzania Health Promotion Support (THPS) in implementing Afya Hatua Project is currently seeking highly experienced, committed and motivated Tanzanians for the contract of 12 Months Period with Possibilities of Contract renewal vacancies;

Position title: Medical Officer (1 position)
Reports to: Facility Incharge
Location: Ushetu DC

Purpose and Scope of Job:

To provide technical support to health care providers (HCPs) on the provision of high-quality person-centered, multidisciplinary family-focused HIV prevention, and treatment services at supported facilities in Ushetu DC. This entails targeted HIV testing services, optimized Provider Initiated testing and Counseling (O-PITC), same-day enrollment into antiretroviral treatment (ART) of newly identified PLHIV, effective adherence and retention strategies and minimizing interruption to treatment (IIT), TB/HIV Integration, screening and management of Advanced HIV Disease (AHD), integration of Non-Communicable Disease (NCD) services into care, and ensuring viral load monitoring and maximal suppression to < 50 copies/ml. S/He will work with the PMTCT/Pediatrics field officers and community services team to ensure that HCPs, expert recipients of care (RoC) and community volunteers are well equipped with skills to appropriately manage infants, children and adolescents living with HIV according to national and international standards.

Principal duties and responsibilities:

- To conduct supportive supervision, job training, continuous medical education and training to HCPs and supportive cadres on RoC-centered comprehensive TB/HIV services towards epidemic control.
- Facilitate the provision of optimized PITC, Index testing, Social network Testing (SNT), and HIV self-testing services (HIVST) at all key entry points in the health facility
- Facilitate integration between TB and HIV services including infection control within HIV care and treatment clinics.

- Facilitate screening and management of Advanced HIV Disease (AHD) and other opportunistic infections to RoC within HIV care and treatment clinics.
- Facilitate integration between Non-communicable diseases (NCDs) (eg. HTN, Diabetes, Malnutrition etc) and HIV services within HIV care and treatment clinics.
- Support the health facilities in the provision of comprehensive friendly HIV/AIDS to children and adolescents including pediatric case identification, optimized ART initiation, TB preventive therapy, screening, and management of opportunistic Infection
- Under the leadership of District Aids Coordinator, HF Incharge and District Manager, support HFs in the assigned districts to implement program activities that meet targets on HIV prevention, treatment, adherence and retention to ART, TB/HIV collaborative activities, HTS, PMTCT, Laboratory, CECAP and GBV/VAC.
- Support health providers and community teams to implement evidence-based innovations to retain key and vulnerable populations living with HIV identified in community settings
- Ensure RoC efficient HVL, CD4 and TB samples are transported and results documentation for proper HIV viral load monitoring.
- Facilitate paediatric optimization for paediatric clients on ART in the assigned
- To ensure QI initiatives are implemented in assigned facility
- Ensure that THPS-supported clinical care activities at multiple delivery sites conform to the Tanzanian national guidelines.
- Work closely with the THPS supply chain officer to ensure all HIV/AIDS supplies and commodities are available in all supported health facilities
- Ensure the availability of national HIV prevention and treatment guidelines and tools at all supported sites
- Perform any other duties as assigned by your supervisor

Qualifications, Experience and Skills Required:

- Medical Doctor (or equivalent) from a recognized University.
- At least two years of experience in donor-funded HIV program implementation
- Familiarity with national, regional and district-level health care programs in Tanzania.
- Ability to work independently with strong problem-solving skills
- Fluent in English and Swahili with good verbal and written communication skills.
- Excellent computer skills especially on Ms Word, power point and excel
