SUMWOOD

www.sumwood.co.tz

#1 hospitality furniture supplier . Installations . Interior Planning . Indoor & Outdoor

### Company Description

SUMWOOD.CO.TZ is a reputable furniture organization based in Sakina, Arusha. We specialize in providing high-quality furniture for homes, hotels, lodges, camps, and offices. Customers can shop both online and in-store at our Sakina, Arusha location.

### Job Summary:

We're seeking a creative and experienced Architect to join our team at Sumwood Furniture Manufacturing. The successful candidate will be responsible for designing and developing innovative furniture products that meet customer needs and exceed expectations.

### Key Responsibilities:

- Design and develop furniture products that meet customer requirements and company standards
- Create detailed design specifications, drawings, and models
- Collaborate with cross-functional teams to ensure design feasibility and manufacturability
- Conduct research to stay up-to-date on design trends, materials, and technologies
- Develop and maintain design documentation and records
- Work with production team to ensure design intent is maintained during production

### Requirements:

- ✓ Degree in Architecture or related field (e.g., Industrial Design, Furniture Design)
- ✓ 2+ years of experience in furniture design or related field
- ✓ Strong knowledge of design principles, materials, and manufacturing processes
- ✓ Proficiency in design SketchUp and SolidWorks software is mandatory.
- ✓ Excellent communication and collaboration skills
- ✓ Ability to work in a fast-paced environment and prioritize tasks effectively

### Preferred Qualifications:

- Experience with 3D modeling and rendering software
- Knowledge of sustainable design principles and practices
- Familiarity with furniture industry trends and market dynamics

## How to Apply

If you're a talented and innovative Architect with a passion for furniture design, please submit your application, including your resume, cover letter, and portfolio, to [fadhili.omaly@sumwood.co.tz](mailto:fadhili.omaly@sumwood.co.tz) We look forward to seeing your work

www.sumwood.co.tz

### Company Description

SUMWOOD.CO.TZ is a reputable furniture company based in Sakina, Arusha. We specialize in providing high-quality furniture for homes, hotels, lodges, camps, and offices. Customers can shop both online and in-store at our Sakina, Arusha location.

### Job Summary:

We're seeking a highly skilled and experienced Production Supervisor to join our team at Sumwood, a Furniture Manufacturing plant. The successful candidate will oversee the production process, ensuring efficient and high-quality production of furniture products. The ideal candidate will have a strong background in production management, manufacturing processes, and carpentry technical knowledge.

### Key Responsibilities:

- Supervise and manage production staff to ensure efficient production processes and high-quality products
- Implement and maintain production schedules, workflows, and quality control measures
- Conduct regular inspections to ensure products meet quality standards
- Troubleshoot production issues and implement corrective actions
- Collaborate with other departments to ensure smooth production flow
- Manage inventory levels and material supplies
- Ensure compliance with safety regulations and company policies

### Requirements:

- ✓ Diploma or degree in Woodworking, Civil Engineering, Furniture Design, Industrial Engineering, or related field
- ✓ 2+ years of experience in production supervision in the furniture manufacturing industry
- ✓ Strong knowledge of carpentry technical skills, including woodworking machinery and tools
- ✓ Excellent production or operations management and manufacturing process knowledge
- ✓ Strong leadership and communication skills
- ✓ Ability to work in a fast-paced environment and prioritize tasks effectively

### Preferred Qualifications:

- Experience with lean manufacturing principles and practices
- Knowledge of safety regulations and compliance
- Familiarity with quality control systems
